

Education

Bachelor of Architecture,
University of Oregon, 2014

Tools

JavaScript

ES6+, AngularJS, Next.js,
React/Redux, Node.js, GraphQL,
webpack, grunt/gulp, jQuery

UI

Storybook, styled-components,
HTML5/SCSS/CSS, Foundation,
Bootstrap, Tachyons

Testing

Jest, Enzyme, Jasmine, Karma,
Mocha, Chai

General

Django, Docker, nginx, Solr, Git,
Bash, Amazon Web Services
(AWS), Segment, CircleCI,
Heroku, Rails

Experience

Architizer, Software Engineer

September 2015 – present, New York City

Full-stack/frontend-focused feature development and infrastructure maintenance for Architizer's marketplace for building-products.

- Led frontend efforts for large feature projects, including a private messaging interface, and directory interfaces to Solr search indexes (*AngularJS, SCSS, Django, Solr, Haystack*)
- Established and maintained a UI component system to facilitate faster feature development and improve collaboration with designers (*React, Next.js, Storybook, styled-components, SCSS*)
- Managed and extended integrations with external tools for analytics, error logging, marketing, and customer support (*Segment*)
- Optimized frontend infrastructure to speed up deployment and improve test coverage (*Node.js, CircleCI, AWS, Docker, gulp*)
- Assisted in infrastructure cleanup, including pruning AWS resources to reduce costs, and cleanly refactoring stale application code
- Demonstrated technical leadership in onboarding new hires, code reviews, and promoting collaborative engineering culture

EyeCue Lab, Software Engineer

October 2014 – August 2015, Portland, Oregon

Internship-to-hire. Consultancy/agency setting.

- Built marketing pages and full-stack features for web applications and client projects (*Rails, AngularJS*)
- Delivered three client projects during my employment

Epicodus

July 2014 – October 2014, Portland, Oregon

Code school. Learned Ruby on Rails, JavaScript, and other tools.

- Learned full-stack web development via test-driven development and daily pair programming
- Attained internship-to-hire with EyeCue Lab after Epicodus

Apple, AppleCare Advisor

June 2013 – May 2014, Eugene, Oregon

Tier I technical support while completing my degree. Remote position.

- Provided technical phone support for macOS products, and customer service for Apple ID, fraud/billing, and account security
- Provided email customer service for iTunes Store purchase issues
